

Household Hazardous Waste

By definition these materials can be harmful and should never go into your community's regular trash. The materials listed below have commonly been referred to as household hazardous waste or HHW.

These materials include:

- Automotive products (antifreeze, fluids, motor oil, oil filters, gasoline, polish and wax)
- Batteries (home and vehicle) Electronics (TV, computers, laptops, cell phones, printers, fax machines, MP3 players, DVD/CD/tape players, and more)
- Fluorescent light bulbs and compact fluorescent lamps (CFL)
- Household cleaners (ammonia, drain cleaner, rust remover, tile/shower cleaner and more)
- Universal materials (include mercury containing items: thermometers, thermostats)
- Paint products (oil-based paint, latex paint, spray paint, caulk, wood preservative, wood stain)
- Garden chemicals (pesticides, herbicides, fertilizers, insecticides)
- Sharps (needles and lancets)
- Swimming Pool Chemicals

For information on proper disposal of household hazardous waste, please contact Mesa County Landfill at 257-9336.
