

# WM CURBSIDE COLLECTION UPDATE

WM is transitioning fully to collection in carts with automated side-load trucks to help keep your Fruita neighborhood clean and our workers safe. We need your help to make this a successful transition.

During the weeks of January 8 – 26, a wheeled, 96-gallon trash cart will be delivered to home if you do not already have one, and a 96-gallon recycling cart will be delivered if you have opted in to recycling.

Effective the week of January 29, 2024, we ask that all materials be placed inside your new WM cart(s) for collection and not left on the curb or next to the cart.

Dear Fruita Resident:

Effective the week of **January 29, 2024**, we ask that all materials are put in WM carts and not left on the curb. Extra bags and materials left outside your carts are vulnerable to weather and pests, and pose health, environmental and safety concerns.

If you do not already have a wheeled, 96-gallon WM trash and/or recycling cart, we will deliver one between **January 8-26, 2024**. Please begin using immediately.

If you would like us to collect your personal trash can for disposal, please use the stickers we include with your new cart tag and leave your EMPTY can out for collection the week after you get the new WM cart. We will collect any 18-gallon recycling bins when we deliver our new recycling cart. Please leave empty bins by the curb.

You no longer have to separate recyclable materials. Empty your clean recyclables -- bottles, cans, paper, cardboard -- loosely (not bagged) into your recycling cart. For more information on what's recyclable, please visit [wm.com/recycleright](http://wm.com/recycleright).

If you need additional disposal capacity, you can request another cart for \$4.00 per month. Please contact the City of Fruita at 970-858-3663 during regular business hours to order another cart.

Thank you for your cooperation in transitioning to cart-only collection, helping to protect your driver and keeping the community clean and beautiful.
