

RESOLUTION 2023-23 B

A RESOLUTION AMENDING THE ANNUAL FEES AND CHARGES RESOLUTION FOR 2023 FOR DEVELOPMENT IMPACT FEES (POST & TIF)

WHEREAS, fees and charges for 2023 were established by Resolution 2022-34; and

WHEREAS, the POST Impact Fee Study was adopted by the Fruita City Council on June 20, 2023 and includes a recommended development impact fee for parks, open space and trails for both single family and multi-family dwelling units. The City Council desires to implement said POST impact fee on a phased approach with the revised single family fee going into effect in two phases with the first phase effective August 16, 2023 and the second phase to go into effect on January 1, 2024 and the multi-family fee going into effect in its entirety on August 16, 2023, and

WHEREAS, the City Council adopted Ordinance 2023-06 on July 18, 2023 which amended the annual adjustment for inflation for transportation impact fees from the annual change in the CDOT Construction Cost Index to a ten (10) year rolling average of the CDOT Construction Cost Index, and reduced the current base fee from \$8,355 to the base rate of \$6,763 established in the 2018 Duncan Associates Study, and

WHEREAS, it is necessary to amend the fees established for the remainder of 2023 to implement the changes in the development impact fees for parks, open space and trails and transportation as outlined in Ordinance 2023-06.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF FRUITA, COLORADO, AS FOLLOWS:

Section 1: The 2023 development impact fees for Parks, Open Space and Trail (POST) and for Transportation are hereby amended as shown on the attached Exhibit A.

Section 2: The effective date of said changes shall be August 16, 2023.

**PASSED AND ADOPTED BY THE FRUITA CITY COUNCIL
THIS 1st DAY OF AUGUST, 2022**

IV. BUILDING INSPECTIONS FEES

Please see Attachment 2 to Resolution 2022-34 for Fruitva Building Inspection Fees.

Building Valuation Data – AUGUST 2022

The International Code Council is pleased to provide the following Building Valuation Data (BVD) for its members. The BVD will be updated at six-month intervals, with the next update in February 2023. ICC strongly recommends that all jurisdictions and other interested parties actively evaluate and assess the impact of this BVD table before utilizing it in their current code enforcement related activities.

The BVD table provides the “average” construction costs per square foot, which can be used in determining permit fees for a jurisdiction. Permit fee schedules are addressed in Section 109.2 of the 2021 *International Building Code* (IBC) whereas Section 109.3 addresses building permit valuations. The permit fees can be established by using the BVD table and a Permit Fee Multiplier, which is based on the total construction value within the jurisdiction for the past year. The Square Foot Construction Cost table presents factors that reflect relative value of one construction classification/occupancy group to another so that more expensive construction is assessed greater permit fees than less expensive construction.

ICC has developed this data to aid jurisdictions in determining permit fees. It is important to note that while this BVD table does determine an estimated value of a building (i.e., Gross Area x Square Foot Construction Cost), this data is only intended to assist jurisdictions in determining their permit fees. This data table is not intended to be used as an estimating guide because the data only reflects average costs and is not representative of specific construction.

This degree of precision is sufficient for the intended purpose, which is to help establish permit fees so as to fund code compliance activities. This BVD table provides jurisdictions with a simplified way to determine the estimated value of a building that does not rely on the permit applicant to determine the cost of construction. Therefore, the bidding process for a particular job and other associated factors do not affect the value of a building for determining the permit fee. Whether a specific project is bid at a cost above or below the computed value of construction does not affect the permit fee because the cost of related code enforcement activities is not directly affected by the bid process and results.

Building Valuation

The following building valuation data represents average valuations for most buildings. In conjunction with IBC Section 109.3, this data is offered as an aid for the building official to determine if the permit valuation is underestimated. Again it should be noted that, when using this data, these are “average” costs based on typical construction methods for each occupancy group and type of construction. The average costs

include foundation work, structural and nonstructural building components, electrical, plumbing, mechanical and interior finish material. The data is a national average and does not take into account any regional cost differences. As such, the use of Regional Cost Modifiers is subject to the authority having jurisdiction.

Permit Fee Multiplier

Determine the Permit Fee Multiplier:

1. Based on historical records, determine the total annual construction value which has occurred within the jurisdiction for the past year.
2. Determine the percentage (%) of the building department budget expected to be provided by building permit revenue.
- 3.

$$\text{Permit Fee Multiplier} = \frac{\text{Bldg. Dept. Budget} \times (\%)}{\text{Total Annual Construction Value}}$$

Example

The building department operates on a \$300,000 budget, and it expects to cover 75 percent of that from building permit fees. The total annual construction value which occurred within the jurisdiction in the previous year is \$30,000,000.

$$\text{Permit Fee Multiplier} = \frac{\$300,000 \times 75\%}{\$30,000,000} = 0.0075$$

Permit Fee

The permit fee is determined using the building gross area, the Square Foot Construction Cost and the Permit Fee Multiplier.

$$\text{Permit Fee} = \text{Gross Area} \times \text{Square Foot Construction Cost} \times \text{Permit Fee Multiplier}$$

Example

Type of Construction: IIB

Area: 1st story = 8,000 sq. ft.

2nd story = 8,000 sq. ft.

Height: 2 stories

Permit Fee Multiplier = 0.0075

Use Group: B

1. Gross area:
Business = 2 stories x 8,000 sq. ft. = 16,000 sq. ft.
2. Square Foot Construction Cost:
B/IIB = \$236.05/sq. ft.
3. Permit Fee:
Business = 16,000 sq. ft. x \$236.05/sq. ft x 0.0075
= \$28,326

Important Points

- The BVD is not intended to apply to alterations or repairs to existing buildings. Because the scope of alterations or repairs to an existing building varies so greatly, the Square Foot Construction Costs table does not reflect accurate values for that purpose. However, the Square Foot Construction Costs table can be used to determine the cost of an addition that is basically a stand-alone building which happens to be attached to an existing building. In the case of such additions, the only alterations to the existing building would involve the attachment of the addition to the existing building and the openings between the addition and the existing building.
- For purposes of establishing the Permit Fee Multiplier, the estimated total annual construction value for a given time period (1 year) is the sum of each building's value (Gross Area x Square Foot Construction Cost) for that time period (e.g., 1 year).
- The Square Foot Construction Cost does not include the price of the land on which the building is built. The Square Foot Construction Cost takes into account everything from foundation work to the roof structure and coverings but does not include the price of the land. The cost of the land does not affect the cost of related code enforcement activities and is not included in the Square Foot Construction Cost.

IV. Table 1A - Fruita Building Inspections Fees

Fee #	Fee Description	Fee Value
1	<p>Applies to any project subject to the "Group" and "Type of Construction" identified by the 2003 International Building Code. The fee associated with any project type separately listed in this table will supersede this Permit Fee. Permit Fees generally include the permit and the inspections to support a project. Re-inspection and additional plan review fees may also apply.</p> <p>Plan Review Fees in addition to the Permit Fee: New Commercial Construction, Addition, or Alteration to the Commercial Building.</p> <p>New One and Two Family Residence (R-3): Applies to new one and two residential projects. The Fruita Building Department has the discretion to apply this fee or a portion thereof.</p> <p>Third Party Plan Review: The Fruita Building Department may require certain projects to have plan reviews completed by a third party. Any costs between the applicant and the third party reviewer are negotiated and charged directly between the parties. The Fruita Building Department may assess an additional fee associated for the Building Department's additional review.</p>	<p>Table 2</p> <p>Maximum 50% of the Value of the calculated Permit Fee as determined to be appropriate by the Building Department.</p> <p>Maximum 15% of the Value of the Calculated Permit Fee as determined to be appropriate by the Fruita Building Department.</p> <p>Maximum 20% of the Value of the Calculated Permit Fee as determined to be appropriated by the Fruita Building Department.</p>

Notes:

1. To determine the Total Valuation for new construction or additions, select the applicable Square Foot Construction Cost multiplier in Table 3A and 3B- Building Valuation Data. The product of the identified multiplier and the area, in square feet, of the outside dimension of the proposed construction project is the Total Valuation.
2. The Total Valuation for remodels is the actual labor and material cost of the project.
